

Cyber and Professional Liability Insurance

A.M. Best rating of A+ (Superior), FSC XV
Fortune 100 company

Maximize your security. Minimize the damages.

Nationwide's Enterprise Cyber insurance policy is a service based solution designed to complement and enhance your organization's cyber risk profile. Our expertise allows us to get creative and provide you solutions to maximize your security. Policyholders have access to loss prevention services, breach response and remediation expertise, and an experienced claims team.

LOSS PREVENTION

Through Nationwide's network of vendors, policyholders have access to loss prevention services that include Nationwide eRiskHub, enterprise security assessments, training, policy library and compliance readiness.

RESPONSIVENESS

Not all network security incidents happen during business hours. We're fast to take action. Nationwide provides 24/7 claims notice support. Simply call 888-275-7992 or email fsreportclaim@nationwide.com at anytime. Within 2 hours you'll be contacted by a Breach Coach to assess the situation and prescribe next steps. If necessary, Nationwide will put together a highly experienced team of breach remediation partners to get the situation resolved as quickly as possible.

REMEDiation EXPERTISE

Our expertise allows us to get creative. Our relationships allow us to understand your needs when remediation is needed. Nationwide's remediation services include legal, forensic, notification and call center services, as well as, ID theft monitoring and restoration.
